EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Marina Schneller on ~~5~~ June 2005.

The application has been amended as follows: in claim 34, line 4, after "composition" insert --in the form of a liquid, semi-liquid or paste--

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest the presently claimed invention. Hirooka et al expressly teach away from using a non-solid patch to apply the disclosed coating. Thus, Hirooka et al do not teach using a liquid, semi-liquid or paste for applying the claimed composition. The other prior art of record and newly cited references show that the prior art was full of references that teach either using silicates or using boron glass forming materials, but not both. The present claims require both a substance that forms boron glass and a magnesium-silicon compound. Lake (GB 1372113) and Biebrach (DE 1286869) each teach a boron glass forming coating, but the coating does not contain a silicate. Taguchi (JP 11-286620) teaches using alkali meta- and orthosilicates, but does not teach a boron glass. Instead Taguchi use a water glass. Shigematsu (JP 53-060810) discloses using talc, but a water glass is used, not a boron

glass. Therefore, since the prior art does not teach or suggest the combination of a boron glass forming material and a magnesium-silicon compound selected from magnesium ortho-, meta- or tri-silicate, wherein the composition is applied as a paste, semi-liquid or liquid, independent claims 26, 34 and 35 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
